

ARALING PANLIPUNAN – GRADE 9

ESTUDYANTIPID 1

This program was specially created for students to appreciate the value of money. Students are oriented in the ways of using and saving money properly. Among the concepts presented are the differences of needs and wants, wealth, interest and inflation.

ESTUDYANTIPID 2

This show follows the story of Echo and his mother Aling Fely, as both learn to practically value money, and properly use it through savings and investments. The show encourages students to be entrepreneurs and be financially stable. Some of the related concepts presented are savings, entrepreneurship, and career and financial planning.

ESTUDYAN3PID

The third installment to the Estudyantipid Series tackles the four aspects of entrepreneurship – human resource, marketing, finance, and operation. The lessons are discussed side by side topics in High School Economics. The series aims to equip students with fundamental knowledge in entrepreneurship, and encourage them to become future entrepreneurs.

The Estudyantipid series are good supplementary materials for students, not only for Araling Panlipunan for grade 9 and Fourth Year High School, but also for out-of-school learners enrolled under DepEd’s ALS program.

ECONOMIKS

The series discusses the fundamentals of Economics, and the concepts of micro- and macroeconomics, the laws of supply and demand, and the roles of markets and governments. The episodes are good resource materials for the study of Economics.
